- | | |
|----------------------------------|------------------------------------------------------------------------------------------------|
| 1 - Box of Kleenex | 1 - Watercolor paint set (nothing fancy - something from the dollar store or Walmart will do!) |
| 1 - Pair of indoor running shoes | |
| 1 - Package Baby Wipes | 1 - Backpack - large enough to hold outdoor gear and lunch kits |

Fall/Spring Clothing

- Waterproof jacket (hood preferred)
- Waterproof rain pants
- Rubber boots
- Hat
- Lightweight mittens/gloves
- Sunscreen/bug spray as needed

Winter Clothing

- Winter Jacket
- Snow pants
- Winter boots
- Neck warmer/balaclava
- Toque
- Waterproof mittens

Some tips when purchasing outdoor gear:

- Look for rain jackets and rain pants that are “waterproof”, not just “water resistant”. Check the labels for details such as taped or welded seams and water repellent (polyurethane) treatment.
- Ensure that rubber boots are tall enough to withstand lots of puddle splashing!
- Look for winter jackets, snow pants, and boots with high insulation ratings. We also recommend looking for winter boots that are waterproof for slushy weather
- We have found that mittens generally keep little hands warmer than gloves. Look for mittens that are waterproof and have a good weather rating. Mittens with long, elastic cuffs stay in place well both on top of jackets and tucked in.

If you are unsure of what to purchase for outdoor gear, we are happy to give you some “tried and tested” brands that we love. You can email us at heather.denomme@sturgeon.ab.ca or amy.cornet@sturgeon.ab.ca
